

IBPSA-Nordic and EQUA Simulation Finland Oy held a breakfast seminar on August 17 in Tallinn, Estonia. The purpose of the seminar was to present the new Estonian localization of IDA ICE simulation program and to promote IBPSA-Nordic in Estonia. The program included:

- Presentation of IBPSA-Nordic by Mika Vuolle
- Presentation of Estonian localization by Jouko Niemelä
- Talk “Requirements for computer software in energy calculations and new opportunities in simulation” by Jarek Kurnitski
- Talk “Practical experience in using IDA ICE in consult work” by Teet Tark.

The seminar was a big success. There were nearly 40 participants, which is double the expected amount of people. People came from the local university, professors and students alike, as well as designers and directors from various companies.
